

EMMAIonPhysicsMessenger.hh

```
graph TD; A[EMMAIonPhysicsMessenger.hh] --> B[G4UImessenger.hh]; A --> C[globals.hh];
```

The diagram illustrates the header file dependencies for EMMAIonPhysicsMessenger.hh. It is a hierarchical structure where the top-level header file includes two other header files. The top-level file is represented by a grey box, while the included files are in white boxes. Blue arrows indicate the direction of the 'include' relationship from the top-level file to the included files.
